EXPERIENCE

Bluelearn – Bangalore

Lead Frontend + Fullstack Engineer   **_Dec 2022 – Present_**
- With an aim to expand my skillset into backend development, I signed up for a role where I toggled between leading a team of 4 for web frontend and assisting in backend tasks.
- Started with building basic CRUD operations for the admin panel. Since then, owned numerous features, taking them from database design all the way to production, while also building the corresponding frontend for a seamless user experience.
- The role also includes maintaining the sanity of the server & database infrastructure.
- Got to write some shady code for crawlers & bots.
- Created beautiful landing pages, dashboards & internal tools.
- Experimented with a variety of DevOps & Dx approaches.

Express, Postgres, Redis, Nexj.js, Tailwind, Framer motion, GSAP, Typescript, Docker, Terraform

Bluelearn – Goa (Remote)

Frontend Engineer   **_Oct 2021 – Nov 2022_**
- Laid foundation for the core web infrastructure, encompassing everything from the design system to deployment pipelines.
- Carried out 5 major iterations over the web frontend infrastructure from ground-up, each version focused on optimising various aspects, including user experience (UX), performance, development time, developer experience (Dx), or sometimes simply exploring new technologies.
- In this role, I also led a team of 2-4 members on and off.

Nexj.js (React), ChakraUI, Ant design, SCSS, Typescript, Docker, Terraform

PresentStories (Unlaunched) – Delhi (Remote)

Freelance Frontend Developer   **_Sept 2020 – Aug 2021_**
- Built front-end applications for both buyers and vendors using React and Next.js.
- Architected and implemented a basic design system with SCSS to ensure design consistency and achieve close to 99% accuracy with Figma mockups.
- Learned and implemented Next.js on the fly to meet project requirements.
- Learned about the intricacies of production-grade front-end development from a UX perspective.

Nexj.js (React), SCSS, Javascript

EDUCATION

SVIT (Gujarat Technical University) – Vasad, Gujarat   **_May 2023_**
Bachelor of Engineering, Computer Engineering; CGPA: 8.10

LEADERSHIP and ACHIEVEMENT

HackClubSVIT - Vasad, Gujarat

Club Lead   **_Aug 2021 – Jan 2023_**
- Led 2 offline hackathons of more than 1k footfall with a team of 20 peers.
- Directed branding, tech & marketing for the hackathons.

Prakarsh and Vision - Vasad, Gujarat

Web & Graphics volunteer   **_Oct 2020 – Feb 2022_**
- Led the Web & Graphic teams at 4 instances of our inter & intra college-fests
- Contributed to College Management System using flutter which was used by 1500+ users and 100+ faculties.
- Contributed to other software projects for internal use.
